Re: Important Reminder: Verify Participant Eligibility Through the Eligibility Verification Systems (EVS)

Dear Provider,

As eligibility updates associated with H.R. 1 were implemented on September 30, 2026, some Participants may have experienced changes to their eligibility status

Keystone First CHC encourages providers to verify Participant eligibility through EVS prior to delivering services and to continue routine eligibility checks in accordance with established best practices.

Regular EVS verification remains the most reliable way to confirm Participant eligibility, support accurate claims processing, and help prevent avoidable claim denials.

Thank you for your continued partnership and commitment to serving Keystone First CHC Participants.

Sincerely,

Keystone First CHC
